Summary

I'm Lucas, a full-stack developer focused on making meaningful interfaces and experiences. Working at the crossroad of technology, design and business, I like to see my role as the bridge between the chaos of the machine and human language.

Education

Epitech
MS Computer science (2017 - 2022)
Concentration in web applications, interactions and low-level technologies.

EF San Francisco
Intensive english course (summer 2016)

Experience

SII - Full stack developer (July 2018 to Dec 2018)
Built a visual dashboard for scrum teams. Agile project management. Used Vue, Node, Express and Mongo. Internship.

Gang of pizza - Community manager (2016 to 2018)
Managed the digital presence of the company. Targeted ad campaigns. Creation of social media graphics.

PAC Pizza Chef School - Assistant trainer (2016 & 2018 summers)
Pizza ATM training course in Cincinnati (2016) and Toronto (2018).
